

Dr Ptries Boekholt is Managing Director of the Technopolis Group Ltd based in Brighton (UK) and founder of Technopolis BV in Amsterdam. As managing director of the Technopolis Group Ltd she is responsible for the Group's performance and strategy, across nine offices of the company (Amsterdam, Bogotá, Brighton, Brussels, Frankfurt/Main, Stockholm, Tallinn, Vienna).

In her consultancy role she has worked on the topic of research and innovation policy for over 25 years. Her activities include international policy studies, programme management advice and evaluations of research programmes and organisations. Her assignments are at the interface of public research, the private sector and government. She advises regional and national government organizations on innovation strategy and (high-tech)-cluster development. She is particularly interested in multi-governance research and innovation policy and the interaction between European, national and regional stakeholders.

She has worked in many mostly European countries and for several international organisations such as the European Commission, the OECD and UNIDO. Ptries is currently member of the Advisory Board of the Department of Innovation, Environment and Energy Studies (Copernicus Institute) of Utrecht University.

She holds a Master degree in Political Science, Radboud University of Nijmegen (1987) and a PhD from the Aston Business School (1996), UK, with thesis on Research and Innovation Policy of the European Community. She is fluent in Dutch and English and also works in German.

Dr Thomas Teichler works as a leadership coach with a focus on team development and change management, as well as a policy consultant on research and innovation policy. After a few years with Roland Berger Strategy Consultants he worked in market research, before writing a PhD on science cooperation in the high-tech and security sector at the European University Institute in Florence. As a policy consultant Thomas worked for the Manchester Institute of Innovation Research in the UK and for Technopolis Group in Germany. He advised the European Commission, national governments and international organizations on research and innovation policy. Thomas attended both, the CTI coaching and leadership courses, and is currently working with individuals, as well as teams, focusing on how to lead a more fulfilling personal and professional life.

Dr. Jana Kolar is executive director of CERIC-ERIC. She has several years of experience in the fields of research and innovation policy. Among others, she had been Director General of Science in Technology at the Ministry in Slovenia, chairman of the board of Slovenian Technology Agency and a member of the board of Slovenian Research Agency. Between 2009 and 2012 she had been a member of the High Level Group on Joint Programming. She is currently a member of the board of European Institute of Technology and Innovation (EIT), a member of the High Level Group of Innovators for a European Innovation Council and a member of the ERA Council Forum Austria, a high-level expert body advising the Austrian Minister responsible for Science and Research.

Angus Hunter is the Managing Director of Optimat Ltd, a UK-based strategy consultancy specialising in the policy areas of innovation and sustainability. He has been involved in projects related to the European Research Area since 2003 when he managed one of the first ERA-NET Actions on behalf of the UK industry ministry and funding agencies from another 14 European countries. More recently, he has participated in a number of important evaluations including the Impact Assessment of the FP6 ERA-NET Scheme, interim evaluation of FP7 Article 185 on Metrology and evaluation of the Joint Programming Process. He has also led the Optimat activities within the ERA-LEARN2 and ERA-LEARN 2020 projects. As well as supporting the MLE on Alignment and Interoperability he is also a member of the Expert Group for the Meta Evaluation of the Article 185 Initiatives.
