German innovation procurement initiatives and measurement systems

Mutual Learning Exercise
Vienna, 20. September 2017

Kirstin Scheel
Measurement of Innovative Procurement

Current Situation:

We do not actually know how much and what public procurers buy.
Measurement of Innovative Procurement

New regulation for statistical data (§ 98 and § 99 GWB)

Systematic registration of all procurement activities
- **below threshold**: volume, kind of procedure, product group
- **above threshold**: in addition: different categories such as innovation, environment, social (TED database)

**Ongoing:**
Project about the establishment of an electronic system for the collection of all relevant data

**Expected first results**: 2020
Measurement of Innovative procurement

Estimation of the „Bundeswehr Hochschule“, München in 2016

- Overall public procurement: 350 bill. €
- Potential innovative public procurement: 40 – 50 bill. €

Project for systematic registration of public procurement
Thank you very much for your attention!
